Customer Service

A technical designer with a grasp of the big picture aiming to build solutions that solve problems based on how people interact with the process. Specializes in internal and business-to-business projects.

Experience

- Dec 2019 - Present

Pipette Coordinator

Thermo Fisher Scientific, Cambridge MA

 - Coordinated regular pipette calibration for 1000 units between end users and manufacturer without disrupting day-to-day operations.
 - Devised solutions to simplify data input and analysis to better support management needs.
 - Developed an app to reconcile end users with the pipette inventory to streamline communication and customer support.
- Dec 2018 - Dec 2019

Inventory Specialist

Thermo Fisher Scientific, Cambridge MA

 - Maintained, organized, and tracked between 15-20 points of consumable use for various laboratories, usage of which amounted to \$11 million each year.
 - Developed inventory cross-reference macro to identify locations with surplus items could be used to support labs with low stock.
 - Fulfilled client requests and anticipated shortages and/or increased needs.
- May 2017 - Oct 2018

Assistant Equipment Manager

Talamas Rentals, Newton MA

 - Managed database of 20,000 individual product types, valued at several million dollars, to maximize usage of equipment for approximately 200 jobs per month.
 - Developed new company reports using SQL to provide accurate, comprehensive, and pertinent information to upper management.
 - Primary point of contact for select clients and generated \$25,000 in revenue between July and October 2018.
