EXPERIENCE

Thermo Fisher Scientific, Cambridge MA — *Pipette Coordinator*

DECEMBER 2019 — PRESENT

- Coordinated regular pipette calibration for 1000 units between end users and manufacturer without disrupting day-to-day operations.
- Developed solutions to simplify data input and analysis to better support management needs.
- Developed an app to reconcile end users with the pipette inventory to streamline communication and customer support.

Thermo Fisher Scientific, Cambridge MA — *Inventory Specialist*

DECEMBER 2018 — DECEMBER 2019

- Maintained, organized, and tracked between 15-20 points of consumable use for various laboratories, each containing roughly 50 items.
- Developed inventory cross-reference macro to identify locations with surplus items could be used to support labs with low stock.
- Fulfilled client requests and anticipated shortages and/or increased needs.

Talamas Rentals, Newton MA — *Assistant Equipment Manager*

MAY 2017 - OCTOBER 2018

- Managed database of 20,000 individual product types, valued at several million dollars, to maximize usage of equipment for approximately 200 jobs per month.
- Developed new company reports using SQL to provide accurate, comprehensive, and pertinent information to upper management.
- Primary point of contact for select clients and generated $25,000 in revenue between July and October 2018.

EDUCATION

Fitchburg State University — *Bachelor of Science, Communications Media*

SEPTEMBER 2013 - MAY 2017, FITCHBURG MA
